WHEREAS, on November 2, 2006, the Parties entered into a Structured Negotiations Agreement and a Tolling Agreement to preserve the Parties’ respective rights during negotiations, to toll the statute of limitations on Claimant’s federal and state law claims, and to provide the opportunity to resolve the dispute without the need for litigation;

WHEREAS, negotiations between the Parties have resulted in the alteration of certain patient toilet rooms in Long Hospital to make them accessible to patients with mobility disabilities;

WHEREAS, the Parties have a shared goal of enhancing UCSF’s wide ranging program regarding the provision of accessible patient care services to persons with disabilities at UCSF Medical Center, and this Agreement, which among things establishes a framework for the enhancement of policies, procedures, and training programs, the purchase and use of accessible medical equipment, architectural barrier removal, and ongoing cooperation between UCSF and Claimant, is intended to assist in achieving that goal;

NOW, THEREFORE, in order to avoid the burden and expense of litigation, to agree upon and implement a plan to effectuate the intent of the Parties, and for good and valuable consideration, the receipt of which is hereby acknowledged, including the representations, warranties, and covenants contained in this Agreement, the Parties hereby agree as follows:

3. Policy, Program, Training, Procedural Enhancements and Accessible Equipment.

3.1 Consultant Plan.

3.1.1 Prior to March 1, 2008, UCSF Medical Center engaged mutually agreeable Access Policy/Training/Accessible Medical Equipment (“AME”) Consultants to work with appropriate and identified UCSF personnel on accomplishing the objectives specified below. If at any time the mutually agreed upon Access Policy/Training/AME Consultants become unavailable, the Parties will agree on a substitute to serve as the Access Policy/Training/AME Consultants. If the Parties cannot agree on a substitute(s), they will submit the issue to Dispute Resolution pursuant to the process set forth in Section 6, below.

3.1.2 The Access Policy/Training/AME Consultants and UCSF will develop a comprehensive Timetable and Implementation Plan for all reviews, evaluations, assessments, changes and enhancements including, but not limited to:

- (a) Reviewing and enhancing access policies and procedures regarding care for patients with disabilities;
- (b) To ensure effective delivery of health care prior to completion of the Timetable and Implementation Plan, establishing Interim Measures, such as, for example, the sharing of equipment or space or creation of an interim accessible suite;
- (c) Purchasing, installing, and using additional AME, and identifying and implementing any facility and policy modifications for proper implementation of needed AME;
- (d) Reviewing and enhancing patient registration systems;
- (e) Reviewing and enhancing existing New Employee Orientation, Cultural Competency; and
- (f) Enhancing and expanding existing lift and transfer technique training program.

3.1.3 UCSF has adopted the following proposed schedule for the initial Timetable and Implementation Plan recommended by the Access Policy/Training/AME Consultants. UCSF will use good faith efforts to work with the Access Policy/Training/AME Consultants to complete the following tasks on the following schedule:

- (a) By June 15, 2008: UCSF to provide Access Policy/Training/AME Consultants with complete list of Patient Areas;
- (b) Between June 1, 2008 and July 15, 2008: UCSF and Access Policy/Training/AME Consultants to make arrangements for Consultants' Site Visit (which will include surveying UCSF Patient Areas, surveying Inpatient and Outpatient AME, and conducting Department Head and Facility Manager Interviews);

- (d) By July 15, 2008: UCSF to provide Access Policy/Training/AME Consultants with UCSF's Draft Access Policies, Procedures and Practices;
- (e) By July 31, 2008: UCSF to implement Access Policy/Training/AME Consultants' recommendations for interim measures, as set forth in their April 2008 report to UCSF, based upon Consultants' March 27, 2008 visit to UCSF;

- (g) By August 31, 2008: Access Policy/Training/AME Consultants to complete Site Visit;
- (h) By October 31, 2008: Access Policy/Training/AME Consultants to provide UCSF with draft Site Visit Report containing Recommended Accessible Medical Equipment List, and draft Final Access Policies, Procedures and Practices;

(l) By September 1, 2009, complete enhancement of Patient Registration System.

The Parties recognize that due to the nature of this work, and the inevitable collaboration between the Access Policy/Training/AME Consultants and UCSF operational managers, these groups may need to proceed on a different schedule and/or need additional time in which to complete the tasks outlined in paragraphs (g) through (l) above. In the event that UCSF or the Access Policy/Training/AME Consultants determine that it is necessary to extend any of those deadlines, change the order of the priorities set forth above, or otherwise modify the proposed schedule so that any of those deadlines is extended for a period of sixty (60) days or less, UCSF shall notify Claimants' Counsel of the new deadlines in writing. If UCSF or the Access Policy/Training/AME Consultants propose to extend any of those deadlines for a period of more than 60 days, UCSF will provide Claimants' Counsel with the new deadline(s) and the reason(s) for the extension in writing. Any disagreements about the new deadline(s) or the described reason(s) for the extension shall be subject to the Dispute Resolution Procedures set forth in Section 6.2-6.4, below.

3.2 Areas for Review and Development.

3.2.1 With the Access Policy/Training/AME Consultants, UCSF will: (a) evaluate all existing policies and procedures relating to the services, treatment and care provided to patients with disabilities to determine additional policies or procedures, and availability of accessible medical equipment ("AME"), and (b) make changes to existing policies and procedures and purchase and install AME that are necessary to ensure compliance with Disability Access Laws. UCSF will incorporate where appropriate, provisions of the Access Policy/Training/AME Consultant's model access policies and procedures. Such policy and procedural evaluation will encompass:

3.2.1.1 Access – including alternative formats for printed materials; web accessibility; communication access for deaf and hard of hearing patients; other Auxiliary Aids and Services; use of service animals; access to and within exam rooms and patient rooms; location, maintenance and use of accessible medical equipment

- 3.2.1.2 Patient Registration – including capture and retention of patient-specific disability-related needs information at registration; access to Auxiliary Aids and Services and/or assignment to accessible rooms and/or interim measures; communication of disability-related needs data within and across the hospitals and clinics, and retention of that information for future patient visits;
- 3.2.1.3 Accessible Medical Equipment Needs and Purchase Priorities – including determination of accessible medical equipment needs to provide effective medical services to UCSF’s patients with disabilities, both in-patient and out-patient; assessment of potential facility modifications necessary to ensure proper use and placement of needed AME; assessment of accessible medical equipment modifications in areas included in the Accessibility Improvement Proposed Five Year Project Plan as described in Section 5.1 herein.
- 3.2.1.4 Training and Education – including enhancement of existing New Employee Orientation content regarding access, accessible medical equipment, the needs of patients with disabilities, and UCSF policies addressing these issues; enhancement of existing Cultural Competency and Diversity training programs intended to educate staff about treating patients with disabilities and UCSF policies addressing these issues; provision of training for health care providers to enhance awareness and responsiveness to the needs of people with disabilities; and enhancement of existing lift and transfer training to educate UCSF staff about proper lifting and transferring techniques.

Every effort will be made by UCSF to encourage UCSF Medical Center staff (including health care providers) to participate in trainings. UCSF will make its best effort to enable its doctors to earn Continuing Medical Education credits for participating in trainings.

3.2.1.5 Complaint Procedures – including evaluation and enhancement of existing mechanisms for receiving and responding to complaints and other input regarding access needs from UCSF patients with disabilities.

The function of the Internal Oversight Committee will be to track progress of UCSF's access improvement efforts with the Timetable and Implementation Plan regarding policies, procedures and training, provision of accessible medical equipment, and compliance with the Disability Access Laws. The Internal Oversight Committee will report in writing to the Parties and Claimant's Counsel on progress implementing the Timetable and Implementation Plan, as outlined therein, regarding each of items discussed in Section 3.2, above, on the following schedule:

(a) November 1, 2008 (in this initial report, UCSF and the Access Policy/Training/AME Consultants will also provide Claimants' Counsel with the Draft Final Access Policies, Procedures and Practices)

UCSF shall have 15 calendar days to evaluate any proposed modifications and notify Claimant's Counsel in writing regarding agreement or disagreement with proposed modifications. If Claimant and Counsel have comments upon the content of subsequent reports, they will submit their comments to the Internal Oversight Committee in writing by no later than 30 calendar days after each milestone reporting date. If Claimant and Counsel propose modifications to UCSF's efforts described in the subsequent reports, UCSF shall have 30 calendar days to evaluate any proposed modifications and notify Claimant's Counsel in writing regarding agreement or disagreement with proposed modifications. Any remaining disputes regarding the proposed modifications shall be submitted to Dispute Resolution pursuant to the process set forth in Section 6, below.

5. Architectural Accessibility Improvements at UCSF Medical Center.

5.1 Planned Alterations and New Construction. UCSF Medical Center conducts a capital project and equipment renewal process each year. Based on the overall capital projects priorities of the Medical Center, UCSF has developed, and Claimant and Counsel have reviewed, the Accessibility Improvement Proposed Five Year Project Plan, which includes barrier removal and access projects associated with capital projects currently funded through 2008 and projects that UCSF will fund in the future through five years from the Effective Date. The Accessibility Improvement Proposed Five Year Project Plan is attached hereto as Exhibit A. The Department Location Diagrams of all Medical Center Facilities and Accessibility Reference Guide, dated June 1, 2006, may assist in locating and understanding these planned architectural and access improvement projects.

5.2 Compliance. All New Construction and Alterations undertaken at UCSF after the Effective Date shall be designed and constructed in accordance with the Disability Access Laws.

5.3 Review of Access Projects. On a mutually agreed upon date in 2008, and once annually throughout the term of the Agreement, the Parties shall meet in person to discuss progress toward completing the Accessibility Improvement Proposed Five Year Project Plan and any additional architectural work, beyond that listed in information provided pursuant to Section 5.1, that either party believes is necessary to provide Program Access at UCSF in accordance with Title II of the ADA and its implementing regulations. Upon reasonable request of either Party, the Access Policy/Training/AME Consultants will also participate in these meetings. If the Parties have not reached agreement on these issues within sixty (60) days of the meeting, the matter will be handled pursuant to the Dispute Resolution provisions set forth in Section 6, herein.

5.4 In-Patient Toilet Rooms. As a result of the Parties' negotiations, UCSF has constructed, or is in the process of constructing, accessible in-patient restrooms on each floor of Long Hospital. The schedule for constructing additional accessible in-patient restrooms is included in the Accessibility Improvement and New Construction Projects noted in Section 5.1.

6. Dispute Resolution.

6.1 Notice. In the event of: (a) a claim by one of the Parties that the other party is in breach of the Parties' settlement agreement; or (b) any other dispute between the Parties over the construction, application, implementation or modification of this Agreement, or (c) failure of the Parties to reach agreement on the terms of the policies and procedures, the Timetable or Implementation Plan, or any additional accessibility improvements discussed pursuant to Sections 3-5, the party alleging breach, UCSF in seeking the modification, or any party engaged in the dispute, will provide written notice of its position to the other party. Such Notice shall include the following information: (i) the Section or term of the Agreement alleged to be breached or proposed to be modified or the issue on which the Parties have not reached agreement; (ii) any proposed modification, or amendment; (iii) the specific reasons underlying and/or supporting the

proposed breach, modification, or position, including a brief statement of the specific facts, circumstances and legal argument supporting the party's position.

6.2 Meet and Confer. Within two weeks of the date of delivery of the Notice, the Parties will engage in a meet-and-confer process to resolve the dispute.

6.3 Mediation. If the dispute remains unresolved after a reasonable period of meeting and conferring, the Parties will resort to mediation to resolve the dispute.

6.4 Arbitration. If mediation fails to resolve the dispute, the Parties then will settle the dispute finally by means of arbitration conducted by the Judicial Arbitration and Mediation Service (JAMS) pursuant to its Streamlined Arbitration Rules and Procedures. The arbitration will take place in the San Francisco Bay Area. The award of the arbitrator will be enforceable in a court of competent jurisdiction.

7. Monetary Compensation for Claimant. No later than sixty (60) days after the Effective Date, UCSF shall deliver to Linda M. Dardarian, Goldstein, Demchak, Baller, Borgen and Dardarian, at 300 Lakeside Drive, Suite 1000, Oakland, California 94612, a check for \$50,000.00 payable to Claimant August Longo, in full and final settlement of his claims that are being released in Section 8 herein.

8. Release and Waiver. In return for the consideration paid to him by UCSF, Claimant hereby releases, discharges and acquits the Regents of the University of California, the University of California, San Francisco, and UCSF Medical Center and their past, present and future employees, agents, attorneys, officers, directors, shareholders, partners, heirs, executors, administrators, insurers, successors and assigns of all of the foregoing (all hereinafter "Releasees"), from any and all claims, cross-claims or counterclaims, liens, demands, rights, causes of action, debts, obligations, contracts, expenses, damages and liabilities, including attorney's fees and costs, of any kind whatsoever, whether known or unknown, and whether anticipated or unanticipated, that Claimant had in the past, now has, or may have in the future against one or more of the Releasees for any act or omission occurring prior to the Effective Date regarding, relating to, or otherwise connected with any claims of disability discrimination or denial of access to the programs,

services, facilities and equipment of UCSF Medical Center, including any claims arising under any of the Disability Access Laws. This release does not extend to any claim based on any alleged failure of the Releasees to perform any of their obligations under the terms of this Agreement, or to any claim associated with any physical injury to Claimant that manifests itself in the future, which he suffered due to discriminatory or inadequate delivery of patient care services at UCSF.

In addition, Claimant understands and agrees that it is possible that unknown losses or claims exist and that present losses or claims may have been underestimated in amount or severity, and that Claimant explicitly took that into account in determining the amount of consideration to be given or received for entering into this Agreement. A portion of the consideration and the mutual covenants contained herein, having been bargained for between the Parties with the knowledge of the possibility of such unknown claims or losses, is given in exchange for a full accord, satisfaction and discharge of all such claims or losses. To the extent Section 1542 of the Civil Code of the State of California may apply to this Agreement, Claimant has been advised by his counsel concerning Section 1542, has read and understands it, and hereby expressly waives all rights under that Section, which provides: as follows:

SECTION 1542. GENERAL RELEASE. A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM OR HER MUST HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR.
